

SUMMARY

My name is Jonathan E. Chen, and I'm an interaction designer who codes. I create simple and delightful mobile & web experiences. My ideal design role is a marriage between the esthetic & the functional—a designer who has a hand in bringing his own ideas to life.

SKILLS

- UI / UX design (web & mobile)
- prototyping with HTML / CSS
- tools: Sketch, SASS, git, CLI terminal
- proficiency with: Photoshop, Illustrator
- experience with: Rails, Android

EDUCATION

Carnegie Mellon University
B.S. in Computer Science, 2009–2012

Stanford University
M.S. in Design, 2015–2017

EXPERIENCE

OpenCurriculum (YC W14)

Product Lead, JAN 2014 – MAR 2014

Helped design a curriculum building tool for teachers; worked on user acquisition and improved user experience of product through extensive research and interviews with local teachers.

verdle

Product Designer, SEP 2013 – DEC 2013

Redesigned existing mobile app for iOS 7; created email templates, brand assets, wireframes, interactive prototypes, userflow maps; conducted user interviews and integrated feedback into process.
